A premier youth leadership program

Georgia 4-H and Georgia FFA, partnering with the University of Georgia Animal and Dairy Science department, offer extraordinary educational opportunities for youth involved in livestock programs.

Real-Life Applications

Youth Livestock Programs provide students with real-life experiences as they learn responsibility through raising, showing and judging livestock. Livestock projects give students the opportunity to practice and acquire new knowledge in the fields of animal science, business, time management and leadership.

A Strong Tradition

The tradition of Georgia 4-H and FFA programs would not be possible without the personal investment of time and effort by dedicated Georgia 4-H and FFA alumni, friends and supporters.

We invite you to partner with us as we continue to provide these valuable experiences for youth in Georgia. We are convinced that the Georgia Youth Livestock Program is poised for greatness and together we will continue the great tradition of youth livestock programs in Georgia 4-H and FFA.

The excellence of the Georgia Youth Livestock program is greatly enhanced because of the tremendous support, work, research and partnerships that have been created and fostered through Georgia 4-H and FFA. 4-H and FFA look to the University of Georgia Animal and Dairy Science Department to provide competent expert advice and leadership to the animal science components of their programs.
